

REMARKS

Claims 1-24 appear in this application. Claims 25-26 were cancelled without prejudice to applicant's rights to file a divisional application for the subject matter of those claims.

In response to the objection to the drawings made in the office action, applicant submits herewith substitute formal drawings for Figures 1-3. These drawings have been revised to indicate that these drawings represent the prior art.

In response to the obviousness-type double patenting rejection over applicant's copending application no. 10/619,956, applicant submits herewith a terminal disclaimer, with fee authorization, to overcome that rejection.

In view of the above, it is believed that the entire application is in condition for allowance, early notice of which would be appreciated.

Respectfully submitted,

Date: 9-29-05
